

Dear Student,

Welcome to the University of Notre Dame! To protect the health and well-being of all students as well as the campus community, the University requires all incoming students to enter and submit their immunization information to University Health Services (UHS).

All incoming students must have the following:

- Measles, Mumps, Rubella (MMR) series
- Varicella (chicken pox) series
- Hepatitis B series
- Tetanus, diphtheria, pertussis (Tdap) (at or after age 10) or Tetanus, diphtheria (Td) if Tdap was received more than 10 years ago
- Meningitis-ACYW (after age 16) Note: Meningitis-B vaccine, while recommended, does not meet this requirement
- In addition, students coming from countries of high tuberculosis (TB) incidence will be tested at UHS.

You have until **June 30** to submit the above REQUIRED information or a hold will be placed on your account which will prevent you from registering for your SECOND semester.

If you are having trouble finding your immunization records, you can try your pediatrician's office, high school, or previous undergraduate college/university. If you are missing any vaccines, please have them administered by your health care provider, and then submit the record of those immunizations to UHS by June 30. Immunization records must be signed by a medical professional or come from a previous school/college. If you have any questions about the vaccines or our forms, please see our [website](#) (uhs.nd.edu) or email us at immunizations@nd.edu.

Due to the high volume of records we receive in the summer, please allow 3 weeks processing time. You can check the status of your records online through your patient portal, using the instructions immediately below.

As a Notre Dame student, you will have access to your UHS medical records, appointments, etc. through our patient portal at <https://nd.medicatconnect.com>. You will use this link to enter your immunization history, upload documentation of your immunization history, and complete the online History and Physical form. UHS staff can contact you through the portal via an email to your ND email account with a link to a secure message.

You are also eligible to purchase the student health insurance plan through aetnastudenthealth.com. If you are an international student, or a degree-seeking graduate, professional or law student, you will be automatically enrolled into the plan and you will receive separate specific instructions in mid-July. If you are a domestic undergraduate or a non-degree-seeking graduate student, you can purchase the insurance plan directly at aetnastudenthealth.com. The site will open on July 15. If you have any questions pertaining to the insurance plan including premium, please check our [website](#) (uhs.nd.edu) or email us at insurancequestions@nd.edu.

You are invited to attend a ZOOM video conference on [May 16th at 430pm](#) or [June 20th at 5pm](#). Please click on appropriate date, to attend the meeting. We will answer questions about immunizations and the school insurance plan.
